PROFESSIONAL EXPERIENCE

C-j Technology   **Sept 2023 - -Present**
React.js Developer

- Contributed to the development of web applications using React, resulting in improved user experiences and enhanced functionality.
- Collaborated with senior developers to design and implement responsive, pixel-perfect user interfaces that adhere to best practices and design guidelines.
- Assisted in optimizing application performance, reducing load times, and ensuring smooth user interactions.
- Worked on integrating third-party APIs and services, enhancing the application's feature set.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, SQL (Basic)
- **Development:** HTML, CSS/Bootstrap/Tailwind/Styled-component/Module.css, React.js, Next.js, MongoDB
- **Visualization Ans Tools :** Visual Studio Code, Node Package manager, GitHub, Postman

SOFT SKILLS

- Adaptability , Problem Solving, Communication, Team-work

PROJECTS

World -Tour Website

- Developed a Full stack web application from scratch using [MERN :MongoDb, Express, React, Node.js]
- Implemented user authentication (login, logout and registration) for secure access
- Designed and implemented a user-friendly interface.
- Technology Stack : (MERN:- MongoDB, Express, React.js, Node.js),Bootstrap, JavaScript
- See Project here

Coding-Job Technology

- Developed a React web application from scratch using React.js
- Designed and implemented a user-friendly interface, ensuring intuitive navigation and visually appealing design elements
- Integrated third-party APIs and services to enhance application functionality and provide seamless user experiences
- Technology Stack : React.js, JavaScript ,Git
- See Project here

Portfolio

- Designed and developed a portfolio website from scratch using React.js
- Technology Stack : React, JavaScript
- See Project here

EDUCATION

AKS UNIVERSITY SATNA
Bachelor of Technology in Mechanical Engineering

- Commulative GPA : 6.9
